

TRANSPORTATION TUNE-UP

The Transportation Tune Up is a fun way to learn how to drive smarter, live healthier, save money, save time and reduce GHG emissions in the Capital Region. You are invited to become a

"faculty member" and help the CRD spread the word to friends, family or colleagues. Workshops will be held region wide from November through January and prizes include car share credits, bus passes and more! Get connected with a network of citizens who care about how to **get around. Don't have time to become a faculty member? No problem,** you can also make a pledge to tune up your own behavior. Proudly supported by The District of Highlands. Find out more at www.SustainableU.ca/ttu.
